ABOUT ME

Motivated B.Tech student specializing in Artificial Intelligence & Machine Learning with strong knowledge in Python, Java, web development, and data structures. Passionate about building scalable software and AI-driven applications to solve real-world problems and seeking opportunities to enhance technical and problem-solving skills.

EDUCATION

Mother Theresa College of Engineering & Technology – (2021 - 2024) CGPA – 6.5

Diploma in Computer Science and Engineering

CMR Technical Campus – (2024 - 2027) CGPA – 7.0

B.Tech in Artificial Intelligence & Machine Learning

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++

Web Technologies: HTML, CSS, JavaScript, MERN Stack (MongoDB, Express.js, React, Node.js)

Databases: MongoDB, SQL, Firebase

Core Subjects: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, Postman, Linux, VS Code

EXPERIENCE / PRACTICAL EXPERIENCE

GenAI Data Analytics Job Simulation – Forage (TATA Group) January 2026

- Performed exploratory data analysis (EDA) on financial datasets for risk profiling
- Built predictive models to analyze customer delinquency patterns
- Generated actionable insights to support collections strategy
- Applied AI-driven techniques to enhance decision-making accuracy

PROJECTS

AI-Powered Resume Screening System | Python, Scikit-learn, NLP, Flask

- Developed an NLP-based system to match resumes with job descriptions using TF-IDF and cosine similarity
- Built a scalable Flask API to process multiple resumes efficiently
- Improved candidate shortlisting speed and matching accuracy

Full-Stack E-Commerce Web Application | MERN Stack (MongoDB, Express.js, React, Node.js)

- Developed a full-stack e-commerce platform with authentication, product management, and payment flow
- Designed REST APIs for users, orders, and inventory management
- Optimized database queries for faster search and improved user experience

Real-Time Data Analytics Dashboard | React, Chart.js, Node.js

- Built a real-time dashboard to visualize streaming data using interactive charts
- Integrated backend APIs for continuous data processing and updates
- Implemented filtering, sorting, and aggregation for better insights

CERTIFICATIONS

Data Analytics – Deloitte

Artificial Intelligence Fundamentals – IBM

AI Foundation & AI Advanced – Hexart.in

GEN AI – Google Cloud
